

Subject:	SBT.AERIAL SURVEY
Date:	8 MARCH 2014

After some fairly average weather, the guys finally got back in the air today and finished surveying the majority of the eastern 4 lines. The wind was >10 knots for the offshore 1/3rd of lines 14 & 15..

Line 12 133° 28.14'
Line 13 133° 55.62'
Line 14 134° 23.16' (~inshore 2/3rds)
Line 15 134° 50.64' (~inshore 2/3rds)

SBT were recorded at:

Position	Patch size	Fish size
S33 43.019 E134 22.698	20 t	3-5 kg
S33 22.406 E133 53.744	60 t	15-18 kg
S33 39.939 E133 58.895	2 t	12-15 kg

It was a warm day (23-27deg C) with 4-7 knots of wind, moderate haze, and average to poor water colour. Algae was noted on lines 14 and 15.
